# SPREADING AUTHENTIC ISLAMIC EDUCATION

International Institute of Quran learning - IIQL is one the leading Online Islamic Center. In 2013 International Institute of Quran Learning has touched new heights and with the blessings of Allah Almighty has done enormous work in spreading Islamic Knowledge among the people, specially targeting the Muslim youth to build a strong Muslim nation.

## Promoting Muslim Brotherhood

In this time where Muslims are divided into many sects and parties and where Islam is the most misunderstood and misinterpreted religion, IIQL has worked hard in promoting the Muslim brotherhood and creating a spirit of unity among Muslim youth.

IIQL has boldly made an effort to show world the true meaning of Islam through various free and premium courses and through various talks at different forums. IIQL is dedicated to provide authentic Islamic knowledge to every Muslim and promoting Muslim brotherhood.

## Standardized Islamic Education

One of the greatest and most notable milestones IIQL has achieved is standardizing the Islamic Education. It will not be wrong to say that IIQL has pioneered in providing live interactive classes with video and audio to students in Pakistan and other parts of the world.

First time in Pakistan students got a taste of real class room experience while sitting

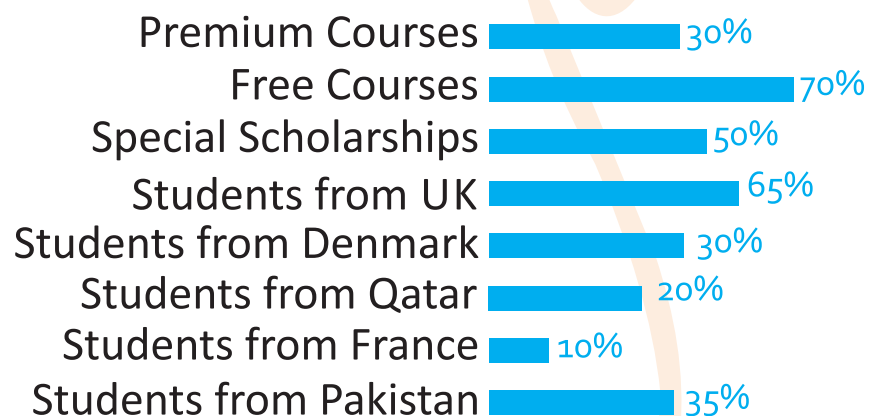

at their homes and that's for Islamic education. IIQL has successfully maintained high standards in providing Islamic education to the students. It is unfortunate that Islamic education is considered as second priority or in most cases not a priority at all, and no importance is given to basics like Tajweed and Recitation. Alhamdulillah IIQL has maintained high quality in all the courses from Basic Tajweed to Advanced Tafseer Course.

Hundreds of International students benefited from the courses offered by IIQL in 2013 which is Alhamdulillah a great achievement.

## Collective Efforts

IIQL has also made collective efforts with other organization which are working for the same cause of spreading authentic Islamic knowledge. In affiliation with **Tawheed Academy** Islamabad, Fehm e Kitab o Hikmat (a one year extensive course) has been launched. Further IIQL has worked with **Youth Club, Shifa Students Society, Rawalpindi Medical College Students Society** and **Muslim United** in broadcasting various events online.
